Alex Li

Profile:

Full stack developer/architect/Team Leader.
I have 15+ years development experience with web/app/backend/solutions.
From small project to large one, I attended as developer, architect and PM etc and carry out too many project successfully.
Last a few years, i built and leaded several projects such as ERP, MES, Travel booking and delivery system etc.
Also I had developed several mobile apps and web apps too.

I'm looking forward to long-term remote development task.
